-------------------------------------

I talked to cheryl about this. She says problem is hrc does not know how to use a computer to do email - only bb. But I said would not take much training to get her up to speed.

Yes we were hoping for that if possible so she can check her email in her office.

We have already started checking into the NSA bb. Will set up the office across the hall as requested. Also think we should go ahead (but will await your green light) and set up a stand alone PC in the Secretary's office, connected to the internet (but not through our system) to enable her to check her emails from her desk. so I have now read up more on POTUS' bb (which appears not really to be a bb but a different device).

is there any solution to her being able to use an encrypted bb like the nsa approved one he has in the vault and if so, how can we get her one.

and if not, let's set up the office across the hall for her to use – it needs a phone etc. so she can go across the hall to check her bb.

Questions 1 and 2 - yes. Will give you more details this morning

On the bb for hrc, can we chat this morning? I may have thought of a workaround but need more info on her bb use from you.

Lew –

who can I talk to about:

1. can our email be accessed remotely through the web using a non-DOS computer like my laptop?
2. I am traveling to the M-E tonight – will my DOS bb work there and is there a cell phone attached?
3. spoke to Dan re: bb for HRC (and reports that POTUS is able to use a super encrypted one which)
4. spoke to Dan re: setting up Counselor office for HRC so she can go across hall regularly and check her email.
